PERSONAL DETAILS

- Date of Birth: May 8, 2004
- Age: 22
- Nationality: Filipino
- Religion: Catholic
- Status: Single

SKILLS

- **Tools/software:** VS code, Github, MS office
- Analytical and Critical Thinking
- Communication and Time Management
- Basic Network Troubleshooting
- Programming Languages (Python, CSS, HTML, JS,)

EXPERIENCE

Although I do not yet have extensive industry experience, I gained hands-on programming experience through our thesis project, where I worked as the backend developer responsible for implementing system logic, data processing, and database integration. This experience strengthened my problem-solving and debugging skills. I am eager to further develop my technical abilities, gain industry experience, and contribute responsibly and ethically in a professional environment.
